

of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the proposed interim approval action promulgated today does not include a Federal mandate that may result in estimated costs of \$100 million or more to State, local, or tribal governments in the aggregate, or to the private sector. This Federal action approves pre-existing requirements under State or local law, and imposes no new Federal requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

National Oil and Hazardous Substances Pollution Contingency Plan National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of Deletion of the E.I. du Pont de Nemours and Company (DuPont) County Road X23 Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region VII announces the deletion of the E.I. du Pont de Nemours and Company County Road X23 Superfund Site from the National Priorities List (NPL). The NPL constitutes appendix B of 40 CFR Part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) which the EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended. This action is being taken as Superfund Remedial Activities have been completed at the Site and EPA and the State of Iowa have determined that no further cleanup by the Responsible Party is appropriate under CERCLA. Moreover, EPA and the State have determined that CERCLA activities conducted at the Site to date have been protective of public health, welfare and the environment.

EFFECTIVE DATE: September 25, 1995.

FOR FURTHER INFORMATION CONTACT: Paul W. Roemerma, Remedial Project Manager, Superfund Branch, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Ave., Kansas City, KS 66101, (913) 551-7694.

SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is the E.I. du Pont de Nemours and Company County Road X23 Superfund Site, Fort Madison, Lee County, Iowa.

A notice of intent to delete for this site was published August 30, 1994 (59 FR 44689). The closing date for comments was thirty (30) days after the notice was published. EPA did not receive any comments on the proposed deletion.

Based upon a review of monitoring data from the site, EPA in consultation with the State of Iowa has determined that the site does not pose a significant risk to human health or the environment. The site shall be monitored in accordance with the Operation and Monitoring Plan approved by EPA.

EPA, in conjunction with the State of Iowa, will conduct future reviews of

monitoring data at a minimum of every five years, or until such time when no hazardous substances, pollutants or contaminants remain at the site above levels that allow for unrestricted use and unlimited exposure.

The EPA identifies sites that appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as the list of those sites. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substance Response Fund (Fund). Pursuant to § 105(e) of CERCLA, any site deleted from the NPL remains eligible for Fund-financed Remedial Actions if conditions at the site warrant such action. Deletion from the NPL does not affect responsible party liability or impede EPA efforts to recover costs associated with response efforts.

[FTR Amendment 44]

RIN 3090-AF73

Federal Travel Regulation; Increase in Maximum Reimbursement Limitations for Real Estate Sale and Purchase Expenses

AGENCY: Federal Supply Service, GSA.

ACTION: Final rule.

SUMMARY: This final rule amends the Federal Travel Regulation (FTR) to increase the maximum dollar limitations on reimbursement for allowable real estate sale and purchase expenses incident to a change of official station. Section 5724a(a)(4)(B)(iii) of title 5, United States Code, requires that the dollar limitations be updated effective October 1 of each year based on the percent change, if any, in the Consumer Price Index for All Urban Consumers, United States City Average, Housing Component, for December of the preceding year over that published for December of the second preceding year. This final rule will have a favorable impact on Federal employees authorized to relocate in the interest of the Government since it increases relocation allowance maximums.

EFFECTIVE DATE: This final rule is effective October 1, 1995, and applies to employees whose effective date of transfer is on or after October 1, 1995. For purposes of this regulation, the effective date of transfer is the date on which the employee reports for duty at the new official station.

FOR FURTHER INFORMATION CONTACT: Jane E. Groat, Transportation Management Division (FBX), Washington, DC 20406, telephone 703-305-5745.

SUPPLEMENTARY INFORMATION: This final rule makes the annual adjustment to the maximum reimbursement limitations for the sale and purchase of an employee's residence when the employee transfers in the interest of the Government. The total amount of expenses that may be reimbursed in connection with the sale of a residence shall not exceed 10 percent of the actual sale price or \$22,398, whichever is the lesser amount. The total amount of expenses that may be reimbursed in connection with the purchase of a residence shall not exceed 5 percent of the purchase price or \$11,198, whichever is the lesser amount. The General Services Administration has determined that this rule is not a significant regulatory action for the purposes of Executive Order 12866 of September 30, 1993. This final rule is not required to be published in the **FEDERAL REGISTER** for notice or comment. Therefore, the Regulatory Flexibility Act does not apply.

[Docket No. 950206040-5040-01; I.D. 091995A]

Groundfish of the Bering Sea and Aleutian Islands Area; Pollock in the Bering Sea Subarea by the Offshore Component

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for pollock by vessels catching pollock for processing by the offshore component in the Bering Sea subarea (BS) of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the second seasonal allowance of the pollock total allowable catch (TAC) apportioned to vessels harvesting pollock for processing by the offshore component in this area.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), September 20, 1995, until 12 midnight, A.l.t., December 31, 1995.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by NMFS according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

In accordance with § 675.20(a)(7)(ii), the second seasonal allowance of pollock for vessels catching pollock for processing by the offshore component in the BS was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8479, February 14, 1995), and augmented from the non-specific operational reserve (60 FR 32278, June 21, 1995) as 440,782 metric tons (mt). The amount actually available is 379,844 mt, subsequent to harvests from the first seasonal allowance.

The Director, Alaska Region, NMFS (Regional Director), has determined in accordance with § 675.20(a)(8), that the second allowance of pollock TAC for vessels catching pollock for processing by the offshore component in the BS
